People and Place Detail

P1: How many people live in the defined study area?

Currently, there are 14,512 persons residing in the defined study area. This represents a decrease of 2,090 or 12.6% since 1980. During the same period of time, the U.S. as a whole grew by 25.4%. (see MAP page 4)

Population History & Projection	1980 Census	1990 Census	2002 Update	2007 Projection
Study Area	16,602	15,209	14,512	14,198

P2: Is the population in this area projected to grow?

No, between 2002 and 2007, the population is projected to decrease by 2.2% or 314 persons. During the same period, the U.S. population is projected to grow by 4.3%. (see MAP page 4)

Population Change	Actual Change From 1980 to 1990	Actual Change From 1990 to 2002	PROJECTED Change From 2002 to 2007
Study Area	-8%	-5%	-2%
U.S. AVERAGE	10%	14%	4%

P3: How spread out is the population in the study area?

In the study area, the top three quarters of the population resides in approximately 100% of the geographical area. In the U.S. as a whole and in the average community, the top 75% of the population resides in just 25% of the populated geographical area. In comparison, the study area population is *highly dispersed* within the overall area.

P4: What is the overall level of diversity in the area?

Based upon the number of different lifestyle and racial/ethnic groups in the area, the overall diversity in the study area can be described as *somewhat high*. See D1 and D2 below.

P5: How dynamic is the study area?

As the population density and overall diversity in an area increase, the environment becomes more complex and challenging. Given these factors, the study area dynamic level can be described as *very high*.

Faces of Diversity Detail

D1: How much lifestyle diversity is represented?

The lifestyle diversity in the area is *somewhat low* with 19 of the 50 U.S. Lifestyles segments represented. Of the six major segment groupings, the largest is referred to as *Young and Coming* which accounts for 64.1% of the households in the area. The top individual segment is *Educated New Starters* representing 33.8% of all households. (see MAP pages 13 and 14)

Households By U.S. Lifestyles Group	Affluent Families	Middle American Families	Young and Coming	Rural Families	Senior Life	Ethnic & Urban Diversity
Study Area	10%	19%	64%	2%	5%	< 1%
U.S. AVERAGE	13%	34%	14%	14%	7%	18%

D2 & D3: How do racial or ethnic groups contribute to diversity in this area?

Based upon the total number of different groups present, the racial/ethnic diversity in the area is *somewhat high*. Among individual groups, *Anglos* represent 89.3% of the population and all other racial/ethnic groups make up just 10.8% which is well below the national average of 30%. The largest of these groups, *African-Americans*, accounts for 5.9% of the total population. *Asians* are projected to be the fastest growing group increasing by 9.3% between 2002 and 2007. (see MAP pages 4 and 7)

Population By Race/Ethnicity	Anglo	African-American	Hispanic	Asian	Native Am. and Other
Study Area	89%	6%	2%	2%	< 1%
U.S. AVERAGE	70%	12%	13%	4%	1%

D4: What are the major generational groups represented?

The most significant group in terms of numbers and comparison to national averages is *Boomers* (age 40 to 59) who make up 29.9% of the total population in the area compared to 27.0% of the U.S. population as a whole. (see MAP page 4)

Population By Generation	Millenials 0 to 20	Survivors 21 to 39	Boomers 40 to 59	Silents 60 to 74	Builders 75 & up
Study Area	22%	25%	30%	12%	12%
U.S. AVERAGE	30%	26%	27%	11%	6%

Faces of Diversity Detail (cont.)

D5: Overall, how traditional are the family structures?

The area can be described as *mixed* due to the about average presence of married persons and two-parent families. (see MAP page 6)

Population By Marital Status (15 and older)	Single (never married)	Divorced or Widowed	Married
Study Area	30%	20%	50%
U.S. AVERAGE	27%	18%	55%

D6: How educated are the adults?

Based upon the number of years completed and college enrollment, the overall education level in the area is *very high*. While 90.0% of the population aged 25 and over have graduated from high school as compared to the national average of 75.2%, college graduates account for 47.2% of those over 25 in the area versus 20.3% in the U.S. (see MAP page 8)

Households with Children by Marital Status	Single Mothers	Single Fathers	Married Couples
Study Area	17%	3%	80%
U.S. AVERAGE	21%	5%	73%

Adult Population By Education Completed	Less than High School	High School	Some College	College Graduate	Post Graduate
Study Area	10%	20%	23%	27%	21%
U.S. AVERAGE	25%	30%	25%	13%	7%

Community Issues Detail

C1: Which household concerns are unusually high in the area?

Concerns which are likely to exceed the national average include: *Satisfying Job/Career, Finding Companionship, Finding Life Direction, Time for Recreation/Leisure, Social Injustice and Retirement Opportunities*. As an overall category, concerns related to *Hopes & Dreams* are the most significant based upon the total number of households and comparison to national averages. (see MAP page 16)

Households By Primary Concerns Group	The Basics	Family Problems	Community Problems	Hopes and Dreams	Spiritual/Personal
Study Area	25%	10%	14%	33%	14%
U.S. AVERAGE	24%	11%	16%	30%	15%

C2: What is the overall community stress level in the area?

Conditions which can contribute to placing an area at risk (particularly, the children) are at an overall *very low* level. This is evidenced by noting that on the whole the area is significantly below average in the characteristics known to contribute to community problems such as households below poverty line, adults without a high school diploma, households with a single mother and unusually high concern about issues such as community problems, family problems, and/or basic necessities such as food, housing and jobs. (see MAP pages 5, 6, 8, 9 and 16)

Regionally Indexed Stress Conditions (RISC)	Households Below Poverty (\$15,000)	Households with Children: Single Mothers	Adult Pop.: High School Dropouts	Primary Concerns: The Basics	Primary Concerns: Family Problems	Primary Concerns: Community Problems
Study Area	10%	17%	10%	25%	10%	14%
U.S. AVERAGE	14%	21%	25%	24%	11%	16%

C3: How much overall resistance to change is likely in the area?

Based upon the assumption that as a group of people become older and more diverse the potential for resistance to change becomes more significant, the area's potential resistance is likely to be *about average*. (see MAP pages 4-5, 13-14)

Population By Age and Diversity	Average Age	Overall Lifestyle and Racial/Ethnic Diversity
Study Area	42.4	5
U.S. AVERAGE	36.7	5

Faith Preferences Detail

F1: What is the likely faith receptivity?

Overall, the likely faith involvement level and preference for historic Christian religious affiliations is *somewhat low* when compared to national averages. (see MAP page 15)

Households By Faith Involvement Level	Not Involved	Somewhat Involved	Strongly Involved
Study Area	43%	31%	27%
U.S. AVERAGE	35%	30%	35%

F2: What is the likely giving potential in the area?

Based upon the average household income of \$69,951 per year and the likely contribution behavior in the area, the overall religious giving potential can be described as *very high*. (see MAP page 4 and 17)

Households By Religious Giving Potential	Average Annual Household Income	Households Contributing More Than \$500 per Year to Churches
Study Area	\$69,951	32%
U.S. AVERAGE	\$61,904	31%

F3: Do households prefer an overall church style which is more traditional or contemporary?

Based upon likely worship, music and architectural style preferences in the area, the overall church style preference can be described as *somewhat traditional*. (see COMPASS pages 3 and 4)

Households By Church Styles Preferences	Worship: Traditional	Music: Traditional	Architecture: Traditional	Worship: Contemporary	Music: Contemporary	Architecture: Contemporary
Study Area	23%	28%	31%	26%	20%	17%
U.S. AVERAGE	20%	24%	27%	26%	20%	16%

F4: Which general church programs or services are most likely to be preferred in the area?

Church program preferences which are likely to exceed the national average include: *Cultural Programs (Music, Art, etc.)*, *Sports and/or Camping Programs*, *Care for the Terminally Ill* and *Active Retirement Programs*. As an overall category, programs related to *Recreation* are the most significant based upon total number of households and comparison to national averages. (see COMPASS page 2)

Households By Church Program Preference Category	Spiritual Development	Personal Development	Community/Social Services	Recreation
Study Area	20%	8%	22%	41%
U.S. AVERAGE	25%	10%	20%	38%

F5: How likely are people to have some religious preference?

In the study area, 85.8% of the households are likely to express a preference for some particular religious tradition or affiliation, about the same as the national average of 85.0%. (see MAP page 15)

Households By Religious Preference	No Preference	Non-"Historic Christian" Groups	"Historic Christian" Groups
Study Area	14%	14%	72%
U.S. AVERAGE	15%	8%	77%
