

Respecting God's World

The beauty of the summer season with trees in full bloom, flowers and vegetables growing etc., we are reminded of the gift of Creation and our responsibility to care for and respect the earth.

How do you show respect for all living creatures?

When you go to a park, lake or maybe go for a hike do you notice God's little gifts like a gentle breeze, beautiful sky and thank him for these gifts of creation?

How do you show care and concern about environmental issues? Do you conserve energy, recycle, pick up litter?

What more could you do as a household? Where do you see improvement?
